C30

THREE FLAP BOX CLOSING MACHINE

C30 is a flexible and compact three flap closing machine with a wide size range.

C30

C30 is a angle built compact box closing machine with a small footprint. It handles the cartons very smoothly. The easy and quick size change is operated with handwheels and digital read outs.

With the flexible overhead belt system C30 can handle limited overload without jam.

Care has been taken regarding reliability, easy access for operator's maintenance and service.

The machine is made of stainless steel and meets the high demands in the food industry.

Infeed

Easy size change

Operating speed

30 cartons per minute.

Supply voltage

400V, 3-phase + neutral, 50 Hz.

(other supply standards available on request)

Control voltage

24V, DC

Power demand

5,6 kW

Air pressure

5-10 bar

Air consumption

40 NI/min at a pressure of 5 bar

Electrical standard

EN 60204-1

(other standards on request)
